CROSSBOWS

2019

A4™

EXPERIENCE THE SOUND OF SILENCE.

THE CAMX A4 CROSSBOW FEATURES THE A4 SUSPENSION SYSTEM WITH A PATENT-PENDING SWINGARM SYSTEM. THE A4 SUSPENSION SYSTEM KEEPS THE STRINGS, CABLES, AND CAMS INSIDE THE TIPS OF THE LIMBS. THIS INNOVATIVE SYSTEM MAXIMIZES DURABILITY, MINIMIZES NOISE, AND ELIMINATES VIBRATION.

THE CAMX A4 CROSSBOW BRINGS A QUIET AND INCREDIBLY ACCURATE SHOOTING EXPERIENCE TO THE SERIOUS CROSSBOW HUNTER.

PAR™ PIVOTING ARROW RETENTION (PATENTED)
This patented, revolutionary advancement replaces fragile bent metal or plastic springs. PAR™ holds the arrow securely and also provides dry fire protection for added safety.

ARC™ 370 4X32 ILLUMINATED CROSSBOW SCOPE
Compact and lightweight other ARC™ features include fully coated optics, cross/dot reticle, 1/4" MOA turrets, 50 yard parallax free, independent eye piece focus and is fog proof, waterproof, and shockproof.

MONOBLOC™ SCOPE BASE
The Weaver® style based Monobloc™ is precision machined from solid aircraft aluminum to create rock solid scope mounting.

THUMBSAVER™ (PATENTED)
Thumbsaver™ is the world's first patented auto return hand guard system. The Thumbsaver™ folds down for precision cocking then automatically returns for full string travel protection.

COMFORTEK™ STOCK
Comfortek™ features adjustable length of pull, dual carry handles, built-in accessory insert and is configured to lay perfectly in your lap for long hours on stand.

INBOARD SWINGARM TECHNOLOGY™ (PAT. PEND)
We've created a unique Patent pending swingarm which houses the A4 cams. The swingarm is suspended between two split limbs and freely pivots to reduce noise, vibration, and harshness.

CROSSBOW SLING MOUNT
The sling mount allows you to attach our Lo Ready sling to keep your crossbow ready for instant access while freeing both hands for glassing, calling, rattling, and hiking.

CAMX CUSTOM STRINGS & CABLES
CAMX Crossbows are equipped with premium quality strings and cables with fibers that are meticulously pre-stretched and handmade in America. Powered By Winner's Choice™.

BALLISTIC NYLON LIMB CAPS
CAMX Ballistic Nylon limb tips protect the critical exposed end of our Armor Tuff limbs from the bumps. Limb tip protection is an exclusive feature only found on CAMX crossbows.

FREE FLIGHT™ BARREL
The Free Flight™ barrel features a unique center relieved portion for perfect arrow flight and is treated with a military spec hard coat anodize finish for durability and is Teflon® impregnated for enhanced string life.

FREEFLOAT™ CABLE SYSTEM (PAT. PEND)
This system is a precise blending of reduced cable angle and reduced cable pressure minimizing torque and friction, while contributing to increased speed.

LO-RIDER™ RISER
A precision CNC machined vented riser reduces mass weight and improves balance while increasing your field of view.

THUMBSAVER™ II (PAT. PEND)
The New Thumbsaver II adds additional protection to your thumb and fingers from the crossbow cable path.

ARMOR TUFF™ QUAD LIMBS
Armor Tuffs™ are the strongest crossbow limbs available today. Laminated glass skins are applied to both sides of the limb covering all exposed fibers. Although expensive, no other method of limb construction provides the same level of accuracy and durability.

WISHBONE™ SIDE MOUNT CROSSBOW QUIVER (PATENTED)
The Wishbone™ mounts "rock-solid" and easily detaches. Dual rubber arrow spreaders prevent lost arrows while the foamless quiver hood keeps broadheads razor sharp and you safe.

GRIPPER™ COCKING STIRRUP
Feather weight alloy construction improves balance and is covered with a Thermal Plastic Elastomer [TPE] shield which reduces shock, noise, and vibration.

ARC™ 4x32 CROSSBOW SCOPE

THE ARC™ FEATURES TWO KEY TECHNOLOGIES: SER™ (SHORT EYE RELIEF) AND ARC™ (ARROW RANGE COMPENSATION). SER™ 1 1/2" EYE RELIEF PERMITS COMFORTABLE SCOPE POSITIONING. COMPACT AND LIGHTWEIGHT OTHER ARC™ FEATURES INCLUDE FULLY COATED OPTICS, CROSS/DOT RETICLE, 1/4" CLICK TURRETS AT 20 YARDS, 30 YARD PARALLAX FREE, INDEPENDENT EYE PIECE FOCUS AND IS FOG PROOF, WATERPROOF, SHOCKPROOF, AND CARRIES A LIFETIME WARRANTY.

ARC™ 370 4x32 ILLUMINATED CROSSBOW SCOPE

- Designed exclusively for the CAMX A4 Crossbow
- Precalibrated from 10 to 100 yards
- Numbered fast fire reticle
- Illuminated crossdot aim dots from 10 to 50 yards
- Mounted with 1" Weaver® style rings
- Six illumination settings with off stops

ARC™ 370 ARROW TRAJECTORY

Yardages for graphical reference only - not in actual view

AMERICAN MADE

THE ENGINEERS BEHIND OUR PRODUCTS FORM A TEAM WITH THE MOST EXPERTISE AND EXPERIENCE IN THE INDUSTRY. OUR VISION IS TO BUILD PRODUCTS AND DO BUSINESS THE AMERICAN WAY. BUILD THEM RIGHT. BUILD THEM BETTER. BUILD THEM TO LAST.

EVERY CAMX IS SIGHTED IN AT THE FACTORY AND CERTIFIED TO OPERATE AT PEAK PERFORMANCE.

CAMX – PROUD TO BE BUILT LIKE NO OTHER.

GUARANTEE

ACCURACY – Your new CAMX crossbow is guaranteed to group 1" or less at 20 yards with the arrows provided in the CAMX "Peak Performance" system. All crossbows are assembled and test shot for guaranteed accuracy before shipping to you. **PERFORMANCE** – Your new CAMX crossbow will shoot the advertised speed. All crossbows are chronograph verified to meet or exceed published speed ratings with supplied ACCUSPINE arrows before shipping to you.

FOREVER FOR ALL WARRANTY

CAMX is proud to stand behind the products we sell. We offer warranty coverage to the original owner within the "product life" of the product. The only components not covered are the ones that with normal use are considered to be wearable and replaceable. For additional detailed information concerning the CAMX Crossbow warranty, please visit www.camxcrossbows.com
