with Carbon Express®”***

THE CARBON EXPRESS® CROSSBOW STORY

As a leader in the archery category who stands for innovation and performance, the team at Carbon Express understands what it means to Shoot Better.

The Carbon Express legacy of high-end performance, design and quality is evident across a product line that provides a bow for every hunting condition, skill level and budget. All of our crossbows are designed and engineered with advanced features that deliver superior performance in every class and provide an outstanding hunting experience.

For 2013, we have integrated new innovative enhancements to our already great crossbow lineup. We feel confident that our crossbow product line represents everything that you have come to expect from Carbon Express – innovation, precision and performance – to fulfill our promise of allowing you to “Shoot Better” with Carbon Express.

To complement our exciting line of crossbows, the team at Carbon Express has revamped the entire lineup of crossbolts. Building from our strong equities and engineering expertise in high performance hunting arrows, the 2013 bolt lineup is led by our number one selling Maxima® Series – Maxima Blue Streak® and Maxima Hunter®, along with the all-new PileDriver® and Mayhem® bolts and a newly designed GameSlayer™ aluminum bolt. Like our crossbow lineup, our 2013 product line of crossbolts is the finest we’ve ever offered and provides a superior shooting bolt for every budget and type of game – all designed to allow you to Shoot Better with Carbon Express™.

A CROSSBOW FOR EVERY NEED AND BUDGET

PRECISION QUALITY

Carbon Express® crossbows are built for hunters who demand the best equipment in the field. Quality engineering and exacting standards provide the foundation for each bow, which is manufactured using state-of-the-art performance carbon-infused limbs, CNC-machined risers, premium alloy cam sets and tunable synthetic strings and cables for optimum precision. Carbon Express crossbows are built to a “no compromise” design standard and are guaranteed to deliver outstanding performance.

COVERT™ CX2

Maximum Speed for Superior Penetration

- Lightning speed and bone-crushing power.
- Quiet precision ensures deadly swift shots.
- Comfort fit allows more accurate shot placement.
- Optimized weight and balance for natural handling in the field.
- 4x32 glass-etched reticle lighted scope.

SPECIFICATIONS

20235	385 fps	142 ft-lb.	200 lbs.	14.5"
Model #	Feet per second	Kinetic energy	Draw weight	Power stroke

COVERT™ SLS

Compact Profile – Ultimate Performance

- Compact profile has slim-line design (13.5" cocked) that allows for easy maneuvering.
- Balanced feel results in great performance and natural handling in the field.
- Ultra-compact CNC machined aluminum riser provides superior front-end stability.
- Picatinny mounting system, complete with adjustable forearm and foregrip.
- 4x32 glass-etched reticle lighted scope.

SPECIFICATIONS

20260	355 fps	119 ft.-lb.	185 lbs.	13"
Model #	Feet per second	Kinetic energy	Draw weight	Power stroke

COVERT™ CX1

Rugged Design with Best in Class Features

- Great looks and rugged performance.
- Bronze-anodized, machined metal rail and carbon infused limbs for superior durability.
- Ergonomic stock design and multi-position forearm provide customizable fit and feel.
- 4x32 lighted scope with red/green illuminations for varying light conditions.

SPECIFICATIONS

20234	330 fps	105 ft.-lb.	185 lbs.	14"
Model #	Feet per second	Kinetic energy	Draw weight	Power stroke

NEW DESIGN

X-FORCE® 350

High Performance, Power and Accuracy – Exceptional Value

- Tactical lightweight one-piece stock design.
- New adjustable forearm on Picatinny rail for customized fit.
- Durable cast riser with rubber coated foot stirrup.
- Powerhouse package with reliable performance at an exceptional value.
- 4x32 scope 6-point multi-reticle scope.

SPECIFICATIONS

20271	300 fps	80 ft.-lb.	165 lbs.	12"
Model #	Feet per second	Kinetic energy	Draw weight	Power stroke

Covert CX2

Aluminum
Alloy Cam
for Increased

Speed

Hi-Tech Precision

CNC machined aluminum riser for precise alignment of the limbs for peak accuracy. Sound-dampening rubber-coated one-piece aluminum foot stirrup provides added safety and stealth in cocking of crossbow.

4x32 Glass-Etched Reticle Lighted Scope
Deluxe multi-reticle lighted scope with red/green dual illumination for varying light conditions.

Anti-Dry-Fire System

All-metal trigger and safety provide smooth, consistent performance, while the anti-dry-fire mechanism is designed to reduce chances of mishaps in the field. The safety system is designed for both left- and right-handed shooters.

Compact Bull-Pup Stock Design

Advanced Bull-Pup stock design positions trigger mechanism 4" forward when compared with conventional crossbows. Complete with 1" and 2" recoil pads for custom length of pull.

Aluminum Alloy Speed Cams

Precision-engineered speed cams for increased speed and kinetic energy. Tunable synthetic bow strings and power cables deliver smooth, accurate shooting for extended performance.

Picatinny Rail System

The Covert CX2 includes a 9" multi-position adjustable rail system perfect for mounting accessories. The forearm is fully adjustable for personal comfort. The bow also includes a custom tactical foregrip with 5 different positions, allowing for the ultimate in custom fit and comfort.

Mossy Oak® Treestand®

Mossy Oak® Treestand® pattern offers hunters the ideal camouflage solution for disguising their silhouettes among the bare limbs of a tree in late fall, geographically and season-to-season.

Mossy Oak® and Treestand® are registered trademarks of Haas Outdoors, Inc.

COVERT™ SLS

CROSSBOWS

COMPACT PROFILE – ULTIMATE PERFORMANCE

- Compact profile has slim-line design (13.5" cocked) that allows easy transport and maneuverability from either a ground blind or a treestand.
- Balanced feel results in great performance and natural handling in the field.
- Ultra-compact CNC-machined aluminum riser provides superior front-end stability.
- Compact Bull-Pup stock enables longer powerstroke and increased speed.
- Picatinny mounting system, complete with adjustable forearm and foregrip, provides ultimate adjustability for any shooting and hunting condition.
- Award-winning, proven performance.
- Slim-line parallel design only 17" uncocked and 13.5" cocked.

Includes SilenTech™ Coating, a rubber-like exterior finish that reduces vibration and dampens sound on crossbows for improved and quieter hunting in the field.

SPECIFICATIONS

20260	355 fps	119 ft-lb.	185 lbs.	13"
Model #	Feet per second	Kinetic energy	Draw weight	Power stroke

- Quick Detach 3 Arrow Quiver
- 3 Maxima Hunter® 20" Crossbolts
- Rail Lubricant
- 3 Practice Points
- 4x32 Glass-Etched Reticle Lighted Scope

13.5" Loaded Width

Slim Profile Design...Custom Fitting Foregrip

SHOWN ACTUAL SIZE

Compact CNC Machined Aluminum Riser

Allows limbs to be drawn back to a very slim-line 13.5" axle-to-axle width. The narrowest in the CX line up, this crossbow allows the easiest front end maneuvering.

4x32 Glass-Etched Reticle Lighted Scope

Deluxe multi-reticle lighted scope with red/green dual illumination for varying light conditions.

Anti-Dry-Fire System

All-metal trigger and safety provide smooth, consistent performance, while the anti-dry-fire mechanism is designed to reduce chances of mishaps in the field. The safety system is designed for both left- and right-handed shooters.

Compact Bull-Pup Stock Design

Advanced Bull-Pup stock design positions trigger mechanism 4" forward when compared with conventional crossbows. Complete with 1" and 2" recoil pads for custom length of pull.

Precision Aluminum Alloy Cam Sets

Precision-engineered cams, tunable synthetic bow strings and power cables deliver smooth, accurate shooting for extended performance.

Picatinny Rail System

The Covert SLS includes a 9" multi-position adjustable rail system perfect for mounting accessories. The forearm is fully adjustable for personal comfort. The bow also includes a custom tactical foregrip with 5 different positions, allowing for the ultimate in custom fit and comfort.

Mossy Oak® Obsession®

Mossy Oak Obsession uses a unique combination of proven Mossy Oak elements, like the same realistic limbs and ghost shadows used in Break-Up. Designed to deceive the best eyes in the spring woods.

Mossy Oak® and Obsession® are registered trademarks of Haas Outdoors, Inc.

COVERT™ CROSSBOWS CX1

RUGGED DESIGN WITH BEST IN CLASS FEATURES

- Great look and rugged performance that delivers a crossbolt to the target with extreme velocity and precise accuracy.
- Bronze anodized, machined metal rail and carbon infused limbs for superior durability.
- Ergonomic stock design and multi-position forearm enable customizable fit to accommodate any shooting style and hand position.
- 4x32 lighted scope with red/green illuminations for varying light conditions.

Includes SilenTech™ Coating, a rubber-like exterior finish that reduces vibration and dampens sound on crossbows for improved and quieter hunting in the field.

2013 CARBON EXPRESS®

CARBON EXPRESS > DEADLY ACCURACY

Carbon Express understands what it means to deliver on the promise of "Shoot Better"TM. From ribbon sharpened blades for maximum cutting to 100% spin testing, Carbon Express guarantees deadly accuracy.

BROADHEADS

BROADHEADS

DUAL-BLADES: TWICE AS DEADLY

Carbon Express understands what it means to deliver on the promise of “Shoot Better”™. From ribbon sharpened blades to 100% spin testing, Carbon Express guarantees deadly accuracy.

Dual side-by-side cutting blades and 6 razor-sharp cutting edges create up to a 250% greater wound opening than traditional broadheads. This means significantly greater blood loss, a better blood trail and ultimately, a faster kill.
