SS MODEL

XT MODEL

FEATURES:

- Patented DualSync Cam System
- Trackless Aluminum Barrel design
- Patented Anti Dry Fire Safety
 - Rifle Style Rotating Safety
 - 3 Pound Trigger Pull
- Patented Barrel Dampener
- Sims LimbSaver® Technology
 - Oversize Foot Stirrup
 - Sling Studs Included
 - Soft Touch Finish
- Dual String Suppressors
- Patented Bullpup Stock Design
- Bowstring: 42 13/16", Power Cables: 29 9/16"

SPECIFICATIONS:

SPEED (400 GR.): **400 FPS** | POWER STROKE: **17 3/4"**
DRAW WEIGHT: **185 LBS.** | MASS WEIGHT: **7.8 LBS.**
AXLE-TO-AXLE: **24 3/8"** | OVERALL LENGTH: **33 1/2"**

The Toxin 180 combines Darton's compact tactical stock and high-energy limb system. Powered by Darton's patented DualSync cam system the Toxin 180 produces an aggressive draw cycle that delivers a 400-grain arrow at 400+ fps. You can now enjoy a screaming fast crossbow in a compact easy to maneuver platform. Its short overall length makes this 18" power stroke bow very easy to cock.

Choice of Highlander Camo with a standard Forearm (SS) or Carbon Black with a TAC (XT) front end that includes an adjustable vertical grip.

AXLE-TO-AXLE: **17"** | OVERALL LENGTH: **33 1/2"**

AVAILABLE COLORS:

HIGHLANDER CARBON BLACK

SS

XT

"WOW" is commonly how the Toxin 150 is described after first shooting it. It's mind blowing how such a short, well-balanced crossbow can shoot 380 fps and be so quiet. The Toxin 150 utilizes Darton's popular Toxin compact tactical stock and narrow high-energy limb system for performance and maneuverability in any hunting situation. If you are looking for a lightweight, fast, and easy to maneuver crossbow, the Toxin 150 is the crossbow for you!

Choice of Highlander Camo with a standard Forearm (SS) or Carbon Black with a TAC (XT) front end that includes an adjustable vertical grip.

AXLE-TO-AXLE: **17"** | OVERALL LENGTH: **32"**

AVAILABLE COLORS:

HIGHLANDER

CARBON BLACK

SS

XT

First item of interest is the Toxin's short overall length, a modest 32 inches, including foot stirrup, typical of the Toxin Series. This is possible through Darton's innovated forward trigger design that results in beneficial weight distribution, creating a new level of comfort when shooting. Being lightweight, short, and featuring a 13.5" power stroke with a narrow axle-to-axle of 17", the Toxin 135 can easily be maneuvered anywhere: tree stand, ground blind or at the edge of the field hunting varmints.

Choice of Highlander Camo with a standard Forearm (SS) or Carbon Black with a TAC (XT) front end that includes an adjustable vertical grip.

TOXIN 100 SS

SUPER LIGHTWEIGHT!

FEATURES:

- Hi-Energy Cam System
- Trackless Composite Barrel design
- Patented Anti Dry Fire Safety
 - Auto Engaged Safety
- Dual String Suppressors
- Sling Studs Included

SPECIFICATIONS:

SPEED (400 GR.): **340 FPS** | POWER STROKE: **13 1/2"**
DRAW WEIGHT: **170 LBS.** | MASS WEIGHT: **6.8 LBS.**
AXLE-TO-AXLE: **17"** | OVERALL LENGTH: **31 3/4"**

The NEW Toxin 100 marks some firsts for Darton's crossbow lineup. The Toxin 100 is the lightest of Darton's crossbows at 6.8 pounds, along with being the shortest at 31 3/4". You wonder what Darton surrendered in order to achieve these firsts? Nothing. The Toxin 100 features a trackless composite barrel assembly using Darton's Patented Bullpup forward trigger design to maximize power stroke and get a better balanced bow for the hunter. Because of its uniquely smooth power stroke, modest 170 lbs. draw weight and 13 1/2" power stroke most hunters will find this crossbow a breeze to cock while still having the ability to launch a 400 grain arrow at 340 fps. The 17" axle to axle and its short length allow the Toxin 100 to be used in any blind. Available in Shadow Black with Carbon decorated limbs for the High Tech look it deserves. The Toxin 100 SS will accept the XT accessory kit.

TERMINATOR II

PERFORMANCE AND VALUE!

FEATURES:

- Hi-Energy Cam System
- Trackless Composite Barrel design
- Patented Anti Dry Fire Safety
 - Auto Engaged Safety
 - Dual String Suppressors
 - Patented Barrel Dampener
 - Sling Studs Included
- Bowstring: 36 7/8", Power Cables: 25 1/4"

SPECIFICATIONS:

SPEED (400 GR.): **340 FPS** | POWER STROKE: **14"**
DRAW WEIGHT: **165 LBS.** | MASS WEIGHT: **7.5 LBS.**
AXLE-TO-AXLE: **24"** | OVERALL LENGTH: **35"**

The trigger forward design used with the Terminator II Crossbow allows for a longer 14" power stroke and more performance with a better-balanced feel. All of Darton's quality components are used with an integrated composite stock-barrel platform to give you the best value in crossbow performance.
