MICRO™ EXTREME

Micro Series

The Excalibur Micro Series represents the next step in the evolution of recurve crossbow technology. Thanks to Gen II Compact Recurve technology and the High Output Express Limbs™, Micro crossbows have a limb width of a mere 25" while producing top speeds up to 400fps! This all adds up to a bombproof, lightweight crossbow that dominates in tight quarters while producing lethal results.

MICRO EXTREME

The Excalibur Micro Extreme takes crossbow hunting to the next level. This crossbow may be small in stature but not in performance, reliability, and safety. Ceasefire technology ensures the crossbow cannot be fired unless an arrow is loaded. Like the other crossbows in the Micro series, it features the High Output Limbs that are virtually bulletproof under any condition. Perfectly at home in the blind, in a tree, or deep in the brush on a spot and stalk, the Micro Extreme is ready to take it on in true Excalibur style. All at 360 feet per second.
