PRODUCT CATALOG

**RAVIN**

**We don't play by the rules, we make our own with innovation and a drive to do it better. Not fans of the status quo, we prefer shaking things up. Taking risks and defying convention comes with the territory. Results come from taking your own course of action and blazing a new trail. At the end of the day, it's the mavericks that are changing the world.**

A man with a beard, wearing a dark tunic, is shown from the chest up. He is holding a flaming torch in his right hand. The torch has a bright, glowing orb at the top, which is emitting a large plume of orange and yellow flames. The background is a solid, dark blue color. The text is overlaid on the left side of the image.

# NEW TECHNOLOGY

R18 CROSSBOW

## ULTRA-COMPACT DESIGN

In our drive to break new technological ground, we hold nothing back. Take the Ravin R18: this crossbow upends all assumptions with limbs that compress vertically, delivering never-before-seen power and accuracy in a frame even smaller than ever possible – 18" long / 4.75" total width.

POWERED BY  
**HELICOIL®**

HeliCoil® is the engine behind Ravin® Crossbows. This revolutionary technology has several industry-changing advantages that all work together to create the most accurate crossbow ever designed.

POWERED BY  
**VERTICOIL™**

## VERTICOIL™ CAM SYSTEM

On model R18

The new proprietary VertiCoil Cam System rotates the ultra-small cams 720 degrees coiling the string and cables around the cam and cam axle allowing an axle-to-axle height of 1.3 inches when fully cocked! VertiCoil uses HeliCoil in two places: the cam and cam axle.

## RAVIN® ELECTRIC DRIVE SYSTEM

On models R500E and R500E Sniper, available as upgrades for R500 and R500 Sniper

The new Ravin Electric Drive System changes the game. With an easy push of a button, the hunter can automatically cock or decock their bow. The Electric Drive Kit consists of a motor unit that attaches to the stock and is quickly detachable to store in a pack or pocket.

R500E CROSSBOW

## VERSADRIVE™ COCKING SYSTEM

On models R500, R500E, R500 Sniper, R500E Sniper

The new VersaDrive Cocking System consists of a revolutionary dual screw drive which moves the Trac-Trigger™ Firing System (TTFS) back and forth. The internal clutch within the VersaDrive System eliminates over-cocking and allows cocking or decocking to be stopped at any time during the process.

POWERED BY  
**HEXCOIL™**

## HEXCOIL™ CAM SYSTEM

On models R500, R500E, R500 Sniper, R500E Sniper

The new proprietary HexCoil Cam System drives speeds to an industry-changing 500 feet per second by rotating an incredible 360 degrees. Along with unmatched speeds, the new game changing HexCoil Cam System allows the axle-to-axle width to be narrower than ever, at just 3.6 inches when fully cocked.

**NEW PRODUCT FOR 2021**

# R500E

**ELECTRIC CROSSBOW**

**SPEED: 500 FPS**

Ravin is shattering industry standards once again with the new R500E. Featuring the new proprietary HexCoil Cam System, the R500E is able to produce speeds of 500 feet per second with a 400 grain arrow, and has an axle-to-axle width of 3.6 inches when cocked and 7.6 inches when uncocked. Along with unmatched speed and dimensions, the R500E has the new Ravin Electric Drive System, that allows users to simply press a button to cock and decock this crossbow, with the option to manually cock the crossbow with the included R500 Draw Handle. The Ravin Electric Drive consists of a 12-volt battery and motor unit that simply attach and detach to the stock. Both the battery and the motor unit can be easily detached for storage or to recharge on the charging dock. The R500E also utilizes our new VersaDrive Cocking system, which consists of a dual screw drive that moves the Trac Trigger Firing System (TTFS) back and forth. The internal clutch within the VersaDrive System eliminates over-cocking and allows cocking or decocking to be stopped at any time during the process. The R500E comes in Slate Gray and will be available Spring 2021.

NEW PRODUCT FOR 2021

# R500E SNIPER PACKAGE

**ELECTRIC CROSSBOW**

**SPEED: 500 FPS**

The new R500E Sniper is Ravin's top-end crossbow and is packed full of technology and is unmatched in the industry. At a staggering 500 feet per second, this is the fastest, most powerful crossbow ever created. The R500E Sniper includes Ravin's new proprietary HexCoil Cam System that rotates the cams an incredible 360 degrees, putting them at 3.6 inches axle-to-axle when cocked, and 7.6 inches axle-to-axle uncocked. The R500E Sniper has the new Ravin Electric Drive System, allowing users to cock and uncock with the push of a button, or to use the new R500 Draw Handle to cock and decock manually. In conjunction, this crossbow utilizes our new VersaDrive Cocking System, which has an internal dual screw drive that moves the Trac Trigger Firing System (TTFS) back and forth. The internal clutch within the VersaDrive System eliminates over-cocking and allows the cocking and uncocking process to be stopped or resumed at any time. To top off this incredible crossbow, the sniper accessories included in this package consist of the new Adjustable Turret Scope, which users can adjust their yardage with the elevation turret of the single reticle scope, The Ravin Scope Level, and .001 Premium Arrows. The R500E Sniper comes in Slate Gray and will be available Spring 2021.

NEW PRODUCT FOR 2021

# R500

## SPEED: 500 FPS

For hunters and shooters that appreciate Ravin's legendary technology, the R500 takes crossbow innovation to the next level. The new proprietary HexCoil Cam System rotates the cams an incredible 360 degrees and has reformed traditional crossbows into the fastest, most accurate and compact designs ever seen. Completely silent, this crossbow uses the new R500 Draw Handle and cocks back to a slim 3.6 inches when fully cocked, firing arrows downrange at 500 feet per second! The R500 utilizes the new VersaDrive Cocking System that has an internal screw drive that moves the Trac Trigger Firing System (TTFS) back and forth. The internal clutch within the VersaDrive System eliminates over-cocking and allows cocking and uncocking to be stopped or resumed at any time during the process. The R500 comes in Slate Gray and will be available Spring 2021.

## POWER UPGRADE

The R500 can be upgraded to the R500E by purchase of the new Electric Drive Kit, sold separately.

NEW PRODUCT FOR 2021

# R500 SNIPER PACKAGE

**SPEED: 500 FPS**

Designed for shooters who want pinpoint accuracy and industry high speeds through a single reticle scope, the R500 Sniper delivers speeds of 500 feet per second and utilizes the new proprietary HexCoil Cam System. The cams rotate 360 degrees and allow the axle-to-axle width fully cocked to be 3.6 inches, and only 28 inches in length! The R500 Sniper utilizes the new VersaDrive Cocking System that has an internal screw drive that moves the Trac Trigger Firing System (TTFS) back and forth. The internal clutch within the VersaDrive System eliminates over-cocking and allows for a cocking and uncocking process that can be stopped or resumed at any time. Complete with the new Adjustable Turret Scope, users will be able to adjust their yardage with a quick turn of the elevation turret. Additional accessories included in the R500 Sniper include The Ravin Scope Level for a perfectly balanced shot as well as .001 Premium Arrows for shooting perfection. The R500 Sniper comes in Slate Gray and will be available Spring 2021.

## POWER UPGRADE

The R500 Sniper can be upgraded to the R500E Sniper with purchase of the Electric Drive Kit, sold separately.

## SNIPER PACKAGE

**NEW PRODUCT FOR 2021**

# R18

**SPEED: 330 FPS**

Utilizing the new proprietary VertiCoil Cam System, the R18 is the shortest Ravin ever created at just 18 inches in length. The VertiCoil Cam System rotates the ultra-small cams 720 degrees, coiling the strings and cables around the cam and cam axle allowing an axle-to-axle height of just 1.3 inches cocked or 4.1 inches when uncocked, with a static overall width of 4.75". The R18 is a takedown style crossbow with limbs that expand vertically, shooting 330 feet per second. The R18 includes a detachable stock with an integrated removable quiver system, making the total length roughly 25 inches when fully in-tact. The unique 6-pound crossbow features the new Ravin 3-Dot Reflex Sight for easy target acquisition, and includes the Ravin built-in cocking mechanism, allowing for an easy draw. The R18 comes in black and is available Spring 2021.

# R20

## SPEED: 430 FPS

In the never-ending quest for superior speed and rifle-like accuracy, the R20 delivers just that. With a 12.5-inch power stroke, the R20 inflicts speeds over 430 feet per second and 164-foot pounds of kinetic energy. Shooting 3-inch groups at 100 yards, this crossbow is sure to impress bow hunters and gun enthusiasts alike! HeliCoil Technology allows this crossbow to be a slim 6 inches axle-to-axle when fully cocked, weighing just over 7 pounds. Available in Predator Camo, exclusive to Ravin.

# BROADHEADS

Our crossbows are groundbreaking and our parts and accessories live up to the same high standards. All Ravin parts and accessories are designed exclusively for Ravin Crossbows.

**3 PACK, ITEM R100**

**\$84.99** MSRP

## RAVIN TITANIUM BROADHEADS

The Ravin Titanium Broadhead, designed exclusively for Ravin Crossbows, utilizes Ti6AL4V Grade 5 titanium and is packed with features for ultimate penetration and performance. This 100-grain mechanical broadhead features a single piece ferrule and internal spring clip. There are no lock rings or o-rings necessary, providing hunters ease of use. The blades deploy upon impact, inflicting a 2-inch cutting diameter.

- 3 Pack
- Ti6AL4V Grade 5 Titanium
- Extreme Accuracy & Penetration
- Internal Spring Clip, No Lock Ring or O-ring
- Rear-Deploying Blades
- Deploys Upon Impact
- 100 Grain
- 2" Cut

**3 PACK, ITEM R102**

**\$54.99** MSRP

## RAVIN ALUMINUM BROADHEADS

The Ravin Aluminum Broadhead, designed exclusively for Ravin Crossbows, gives hunters surgical precision with its rear-deploying blades, which open on impact. This mechanical broadhead has a massive 2-inch cut and internal spring clip, eliminating the need for lock rings and o-rings.

- 3 Pack
- Aluminum 7075-T6/Steel 12L 14 Tip
- Extreme Accuracy & Penetration
- Internal Spring Clip, No Lock Ring or O-ring
- Rear-Deploying Blades
- Deploys Upon Impact
- 100 Grain
- 2" Cut

**3 PACK, ITEM R101**

## RAVIN STEEL BROADHEADS

The Ravin Steel Broadheads, designed exclusively for Ravin Crossbows, are constructed with 416 steel for extreme accuracy, giving hunters the confidence they need in the field. The blades on this mechanical broadhead deploy upon impact with a 2-inch cutting diameter. The Steel Broadheads from Ravin have a single piece ferrule and internal spring clip, eliminating the need for lock rings and o-rings.

- 3 Pack
- 416 Steel
- Extreme Accuracy & Penetration
- Internal Spring Clip, No Lock Ring or O-ring
- Rear-Deploying Blades
- Deploys Upon Impact
- 100 Grain
- 2" Cut

**NEW**

**ITEM R109**

**\$54.99** MSRP

## RAVIN BROADHEAD CASE

With Ravin Broadheads flying off the shelves, Ravin aids shooters by adding a specially designed compact carrying case for their protection and transport into the field. The case locks broadheads in place using magnets—not foam—so blades stay sharp and don't deploy unintentionally. The case fits in the palm of one's hand, is two sided with durable clear covers, and latches securely.

- Durably constructed with secure latch
- Magnetically holds 6 broadheads firmly in place
- Compact, sleek design
