

CEASE-FIRE

Double-barred secondary loading safety that immobilizes the trigger and jaws until you are ready to shoot.

AUTO-FLIP MAGNETIC SAFETY

Resets every time the bow is cocked, dropped or when bolt is removed

DOUBLE-JAW STRING CAPTURE

Smooth, fast and reliable string release

KILL SWITCH TRIGGER

Less than 3 lb. trigger pull with under .015" travel

The Kill Switch™ trigger pull is independent of the holding weight of the bow, so that even though you are holding almost 115 lbs, you can touch it off with only 3 lbs. of trigger pull and .015" of travel distance. Very little motion results in killer accuracy. Game Over.
